SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Concrete and Masonry Construction Standard information collection requirements specified in regulations 29 CFR part 1929, subpart Q. An Occupational Safety and Health Act (OSHAct) covered construction firm engaged in the erection of concrete formwork must post warning signs/barriers, in accordance with 29 CFR 1926.701(c)(2), to reduce exposure of non-essential employees to the hazards of post-tensioning

operations. Paragraphs 29 CFR 1926.702(a)(2), (j)(1), and (j)(2) are general lockout/tagout measures to protect workers from injury associated with equipment and machinery. Paragraph 29 CFR 1926.703(a)(2) requires an employer to make available drawings or plans for jack layout, formwork, working decks and scaffolds. Paragraph 1926.705(b) requires an employer to mark the rated capacity of jacks and lifting units. The OSHAct authorizes this information collection. See 29 U.S.C. 651, 655, 657.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1218-0095.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on May 31, 2014. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the Federal Register on January 31, 2014 (79 FR 5461).
